### Maid Brigade Cleans Your House Green

**M**aid Brigade is the only Green Clean Certified® house-cleaning company in the Lower Hudson Valley region, featuring green cleaning solutions, equipment and processes. Everything they use is certified by Green Seal, a non-profit that sets standards for the prevention of toxic chemicals, noxious fumes and wasted resources. Maid Brigade's vacuums remove 99.9% of asthma and allergy triggers, and the staff uses

microfiber mops and cleaning cloths that work to minimize environmental impact. “Global

warming, greenhouse gases, allergies, headaches, respiratory problems and autism are all very real,” says Robin Murphy, Maid Brigade president. “As global citizens, we must all be aware of how we are treating ourselves and the environment around us.” For more information, call (914) 741-0552 or go online at <http://westchestercounty.maidbrigade.com>.
